### Professionally Engineered

- Robotically welded
- ASME Certified
- Powder Coated
- 5 year warranty on vessel

### Media Adjustment Chamber

- **On-the-fly** media flow control & adjustment for all types of media
- Easy to reach, allows true one man operation

### Unsurpassed Dry Air System

- 1<sup>st</sup> 250 CFM after cooler
- 2<sup>nd</sup> (3) water separators, one having a particulate filter to keep all components in the system clean and dry

### Regulators

- (2) Regulators for adjustable blast and tank pressure
- Adjustment range from 40 PSI to 125 PSI, making machine versatile for many projects

### 60 Degree Spun Cone

- For optimal media flow
- No need for vibration system

### 10" Solid Wheels

- With offset bearing hubs for better weight distribution
- Built to go through a standard doorway

### Powder Coated Fittings

- Tank is custom powder coated, as well as all fittings for corrosion control

### Blast Package

- 12 volt deadman
- #4 or #5 Tungsten carbide blast nozzle
- 3<sup>rd</sup> 250 cfm water separator
- 50' blast hose
- 50' - 1" air supply hose
- 250 cfm 12 volt aftercooler

### Specifications

**BB2500**  
Height 52"  
Width 28"  
Depth 32"  
Weight 130 lbs  
Capacity 2.50 cu. ft.  
Holds 150 lbs of Baking Soda
